Presentation

Developer and Audio Creative with over sixty sound libraries designed for virtual instruments. Passionate about creation and innovation.

I'm transitioning into web development and looking for a front-end role, though I'm open to other opportunities as well.

Education

Université Paris 8, Computer Science (Remote Learning) 2023 – 2025

- **Curriculum:** Computer architecture, Web technologies, Linux environments, databases
- **Minor:** Psychology
- **Certification:** English level C1+

ISTS (ESRA) Paris, Sound Engineering 2005 – 2008

- **Major :** Music studio
- **Curriculum :** Recording, mixing, mastering, acoustics, computer music

Experience

Sound Designer, UVI – Paris, France (Remote since 2016) 2009 - today

- Design and production of sound libraries for virtual instruments
- Development of internal software tools for sound analysis and processing
